**MESTRE**  
LUXURY SINCE 1952

Its design is inspired by elegant Arabic architectural aesthetics. Long hours of craftsmanship to achieve a unique handle.

By adding Swarovski crystals to this spectacular design, we can make it dazzle as it passes through any room.

Round rosette that lacks no detail. The exquisite hand-polishing of the edges is designed to highlight the Mudejar-style details.

#### PLATE SHAPE

Antique forms recovered from the common architecture linking East and West.

The decorative style defines the craftsmen who decorated the main façades with plaster.

Hand-decorated plates are available in two sizes: 400x60mm and 300x53mm.

## Mihrab

Mihrab, semi-circular niche in a mosque that faces Mecca and to which prayer should be directed.

Mihrab is a collection of door hardware that fuses various cultures and shows a rich artistic and architectural heritage that left its mark on Spain.

#### HANDLE SHAPE

The collection survives the passage of time and maintains its essence and distinction thanks to the noble lines and the high quality of the materials it is made of, such as brass.

A strong and durable material.

Its design is inspired by elegant Arabian architectural aesthetics.

TIGER'S EYE

Tiger's eye takes centre stage in MIHRAB Precious, as this natural stone with its warm tones and infinite contrasts fits perfectly with the hand-cut design. Each stone captivates with its characteristic brilliance and contrasts. Their attractive tonality varies depending on how you look at them.

Tiger's eye has the effect of vertical bands, reminiscent of the eye of the animal after which it is named. This effect is produced by the orientation of the fibrous inclusions contained in the mineral.

The design of the collection is inspired by elegant Arabian architectural aesthetics. Our craftsmen dedicate long hours to achieve a unique handle design.
