ARTISTIC SERIES

JEWEL STYLE

It's said that time is gold, in our case, time is much more than that. Details, dedication, exclusivity and the doorway to handcraft. To handmade art. Piece by piece. Since 1952, time has taught us if you treat it unhurriedly, like we do since more than sixty five years ago, results are brilliant like gold itself.

Gold used by the most exclusive door hardware collection TREASURE by Mestre, made of brass and Swarovski crystal.

A jewel style serie perfect for suites and the most exclusive homes.

MIHRAB

COLLECTION

Its design is inspired by elegant Arabic architectural aesthetics. Long hours of craftsmanship to achieve a unique handle.

By adding Swarovski crystals to this spectacular design, we can make it dazzle as it passes through any room.

Round rosette that lacks no detail. The exquisite hand-polishing of the edges is designed to highlight the Mudejar-style details.

PLATE SHAPE

Antique forms recovered from the common architecture linking East and West.

The decorative style defines the craftsmen who decorated the main façades with plaster.

Hand-decorated plates are available in two sizes: 400x60mm and 300x53mm.

Mihrab

Mihrab, semi-circular niche in a mosque that faces Mecca and to which prayer should be directed.

Mihrab is a collection of door hardware that fuses various cultures and shows a rich artistic and architectural heritage that left its mark on Spain.

HANDLE SHAPE

The collection survives the passage of time and maintains its essence and distinction thanks to the noble lines and the high quality of the materials it is made of, such as brass.

A strong and durable material.

Its design is inspired by elegant Arabian architectural aesthetics.

TREASURE

COLLECTION

Is our most challenging design, because behind this spectacular design there is a great deal of craftsmanship. Long hours of expert work to achieve a unique handle.

This line deserves a majestic and voluminous rosette with an air of royalty and elegance.

Rounded and stylish, this rosette design dazzles with its elaborate wave-like details.

COMMON FOR THE COLLECTION

Among this iconic collection, you will find original door furniture and central knobs and fantastic window handles inspired by historical architecture motifs sculpted in pure brass by expert artisan in Spain.

MIHRAB Precious

COLLECTION

TIGER'S EYE

Tiger's eye takes centre stage in MIHRAB Precious, as this natural stone with its warm tones and infinite contrasts fits perfectly with the hand-cut design. Each stone captivates with its characteristic brilliance and contrasts. Their attractive tonality varies depending on how you look at them.

Tiger's eye has the effect of vertical bands, reminiscent of the eye of the animal after which it is named. This effect is produced by the orientation of the fibrous inclusions contained in the mineral.

The design of the collection is inspired by elegant Arabian architectural aesthetics. Our craftsmen dedicate long hours to achieve a unique handle design.
