TECHNICAL CHARACTERISTICS

BABEL LEATHER:

Babel leather is a high-quality and versatile article, characterised by its natural look, ductile hand and semi-opaque appearance.

European full grain bovine leather.

Chrome tanned.

Through-dye, finished with natural resins and pigments.

Thickness: 0,8-1,0 mm

Average surface : 4,8 - 5,0 m²

DALMATA LEATHER:

The Dalmata is a ductile feel leather, with a waxy feel and semi-opaque natural appearance characterised by its natural grain, resulting in different grain sizes along the surface of this kind of leather.

Bovine leather of South American origin with natural grain.

Chrome tanned.

Light dye, refined through pigments and resins.

Thickness: 1,2-1,4 mm

Average surface : 4,8 m²

NABUCK LEATHER:

The soft and warm Nabuck leather is an aniline bovine leather of European origin, with a natural smooth grain (without printing), with the typical velvety feel.

Pure aniline treated with natural fats that provide the product with high liquid repellency, free of fluoridated additives that pollute the environment and have a harmful effect on health.

Therefore, the article contributes to the conservation and respect the environment.

Due the absence of chemicals during the manufacturing process of the article, there is a difference in the shade between one batch and another.

Thickness: 1,2-1,4 mm

Average surface : 5,5 - 6,0 m²

ASCOT LEATHER:

Bovine full grain aniline leather of 0,9 - 1,1mm. Thickness of European origin.

Light dye, dyeing, refined with natural waxes and resins. Ascot leather feels hard to the touch, with a waxy feel and polished appearance, with a two-two-color effect.

Chrome tanned.

Through-dye, finished with natural resins and pigments.

Average surface : 4,8 - 5,0 m2

ANTIQ COLONIAL LEATHER

Antiq Colonial leather is a vintage aged leather that shows its natural features, evidencing the marks caused during the vital process of the animal from which it comes.

Bovine leather of South American origin.

Chrome tanned.

Thickness: 0,9 - 1,0 mm

Average surface : 4,5 m2

LUXURY LEATHER

Art. Horsy is produced on European cow or baby calf.

Chrome tanning. Mineral colors dying. Leather not submitted to finishing. Leather naturally non flammable.

Their average dimensions are:

- 4,5 / 5,0 m2 of surface, 1,4 / 1,6mm of thickness for cow.
- 2,0 / 2,4 m2 of surface , 1,1 / 1,3 mm. Of thickness for baby calf.

They can be made on entire or half skins.
